#### Miscellaneous

- \* Available with a 5” front line marking wheel (12 cm) for the width of line to paint onto your field.
- \* Comes with an innovative brush system which allows the user to reduce or increase the amount of paint applied to the marker wheel.
- \* Suitable for natural grass fields.

### For grass surfaces only!

For best line marking results, we recommend;

- \* Handles are set to the correct height to make ease of pushing the line marking around the pitch/court
- \* Ensuring the position of the spreader brush on the transfer wheel is perfect as this will ensure the perfect line is achieved
- \* Our *Selectline* line marking paint is used to the correct concentration
- \* The machine is properly cleaned after every use
