

## Technical Data Sheet - Selectliner

### Description;

Professional and high-quality battery powered line marking machine with smart charger. Strong steel chassis with adjustable discs for different line widths. Made of high-quality materials and designed to ensure durability and performance for many years.

### Properties;

- \* Strong chassis which holds two 10L cans
- \* High quality parts for optimal results
- \* Spray from front or side
- \* Adjustable line width
- \* User-friendly
- \* Supplied with an empty 10L can

### Usage<sup>1</sup>;

Easy to use with the on/off switch on the handlebar. Lower the discs with the brake, or use the blockage option to keep the discs high of the grass.

For a detailed description please see the *Selectliner – User manual*.

### Cleaning

For optimal usage, cleaning of the equipment is highly recommended. We advise to use clean water in combination with our *Selectline Cleaner* for the best result.

### Storage conditions;

- \* Keep from freezing!
- \* Advised storage temperature between 5°C - 30 °C

### Technical data<sup>1</sup>;

Weight:	36,8 kgs
Outer dimensions:	
<u>Outer box:</u>	85 x 65 x 50 cm
<u>Mounted machine:</u>	± 125 x 60 x 95 cm <sup>2</sup>
Line width;	Adjustable discs for a 5 cm, 8 cm, 10 cm & 12 cm width
Wheels:	Pneumatic rubber & iron rim

### Pump;

High pressure Shurflo diaphragm pump with bypass (*Shurflo 8000-543-220*) generating 4.2 bar – 45 PSI capacity.

### Battery;

The *Selectliner* is equipped with a Landport EV12012 (12AH 20hr). This allows the user to mark up to five football pitches from one charge. All depending on the walking speed. The life expectancy of the battery is approximately two years, depending on the usage frequency and storage conditions. The battery should be kept out of freezing conditions.

### Charging;

Quick access charging point including an indicator panel to notify you about the battery capacity during use of the machine. The charger is included to the *Selectliner*. Charging time around 10 to 12 hours (0% → 100%). It's a battery charger for everyday use, which features the FLOAT/PULSE maintenance program. This makes the charger ideal for long term maintenance. If you do not use your battery for long periods, you can extend the life of your battery by connecting it to the Charger. The charger is a 7 step fully automatic charger and indicates with LED lights which charging program your battery is in.

### Warranty

The *Selectliner* comes with a standard one-year manufacturer's warranty, which can be registered online.

### Surplus product;

This product and the packaging should be disposed of at a collection point for hazardous or special waste.

Made in the Netherlands.
