

Technical Data Sheet – Easyliner

Description;

Professional and high-quality battery powered line marking machine with smart charger. Steel chassis covered with a plastic cap. Adjustable discs for different line widths. Made of high-quality materials and designed to ensure durability and performance for many years.

Properties;

- * Strong chassis which holds one 10L can
- * High quality parts for optimal results
- * Spray from front or side¹
- * Adjustable line width from 5 cm to 12 cm
- * User-friendly
- * Supplied with an empty 10L can

Usage²;

Easy to use with the on/off switch on the handlebar. Lower the discs manual by using the lockpin on the front part of the machine.

For a detailed description please see the *Easyliner – User manual*.

Cleaning

For optimal usage, cleaning of the equipment is highly recommended. We advise to use clean water in combination with our *Selectline Cleaner* for the best result.

Storage conditions;

- * Keep from freezing!
- * Advised storage temperature between 5°C - 30 °C

Technical data¹;

Weight:	28,4 kgs
Outer dimensions:	
<u>Outer box:</u>	80 x 60 x 60 cm
<u>Mounted machine:</u>	± 110 x 50 x 100 cm ³
Line width;	Adjustable discs for a 5 cm, 8 cm, 10 cm & 12 cm width
Wheels;	Pneumatic rubber & plastic rim

Pump;

High pressure Shurflo diaphragm pump with bypass (*Shurflo 8000-543-220*) generating 4.2 bar – 45 PSI capacity.

Battery;

The *Easyliner* machine is equipped with a Landport EV12012 (12AH 20hr). This allows the user to mark up to five football pitches from one charge. All depending on the walking speed. The life expectancy of the battery is approximately two years, depending on the usage frequency and storage conditions. The battery should be kept out of freezing conditions.

Charging;

Quick access charging point including an indicator panel to notify you about the battery capacity during use of the machine. The charger is included to the *Easyliner*. Charging time around 10 to 12 hours (0% → 100%). It's a battery charger for everyday use, which features the FLOAT/PULSE maintenance program. This makes the charger ideal for long term maintenance. If you do not use your battery for long periods, you can extend the life of your battery by connecting it to the Charger. The charger is a 7 step fully automatic charger and indicates with LED lights which charging program your battery is in.

Warranty

The *Easyliner* comes with a standard one-year manufacturer's warranty, which need to be registered online.

Surplus product;

This product and the packaging should be disposed of at a collection point for hazardous or special waste.

Made in the France.

Contact our representative for specific questions regarding the application of this product.

¹ To spray from the side, a 'side-bar' is required. This feature offers greater flexibility and comfort, depending on the user's preferences and the specific field layout. The side-bar is an additional accessory, not included as standard, and can be ordered separately.

² This technical data is based on internal knowledge and experience and is provided as a guideline. However, this does not imply any formal liability for use of our products outside the indicated application framework.

³ * The outer dimensions of the *Easyliner* machine are various because of the adjustable handlebar height.
