

## Technical Data Sheet – Selectline Cleaner

### Description:

*Selectline Cleaner* is a fast and effective cleaning solution for line marking machines. Designed to remove paint residues and internal buildup, it helps extend the lifespan of your equipment. The cleaner is easy to apply, economical in use, and suitable for both routine maintenance and deep cleaning tasks.

### Available in:

5L can

### Properties:

- \* Fast and effective cleaning action
- \* Helps prolong the lifespan of your line marking machine
- \* Easy to apply and rinse
- \* Economical in use

### Application:

Dilute *Selectline Cleaner* with water depending on the required intensity:

Nozzles and hoses:	undiluted
Heavily soiled parts:	1 part <i>Selectline Cleaner</i> to 1 part water
Routine maintenance:	1 part <i>Selectline Cleaner</i> to 6 parts water

Apply the solution directly to the surface to be cleaned. Let it sit for approximately one hour before brushing. Rinse thoroughly with clean water.
